## Authorship Statement

Manuscript title .....

All the authors must meet authorship criteria and must certify that they have materially participated in this work and take full responsibility for its content.

All authors must certify their participation in developing the concept, design, data acquisition and data analysis, writing or revision of this manuscript.

This statement also must guarantee that this manuscript or manuscripts that use same raw data have not been and will not be submitted to or published in any other publication before its appearance in the *Romanian Journal of Anaesthesia and Intensive Care*.

Please mark the specific contribution to this work and sign in the following table:

Author	Conception and study design	Acquisition of data	Analysis and interpretation of data	Drafting the manuscript	Revisions of the data	Signatures

Any conflicts of interest should be declared. Please describe any financial interest, if one exists, with companies or organizations that could be perceived as a conflict of interest, as related to the manuscript subject.

The Authors agree to transfer the ownership of copyright to the *Romanian Journal of Anaesthesia and Intensive Care*, if the manuscript is accepted for publication.
